Phil, Gil,

We've got a number of contracting actions and questions from the regional boards which appear to be waiting on the submission of the quarterly update for the CA permit development support contract worklist. The most recent version I have of the "Contract.Table.FY12-13" spreadsheet dates from January 30 (see attached) and I believe the new one was due in early March.

Could you confirm what the work still outstanding to prepare that update is? Now that SWRCB has ownership of that part of the process I need to insist on receiving timely updates so other work doesn't grind to a halt.
